

# Is Your Service Company Licensed?

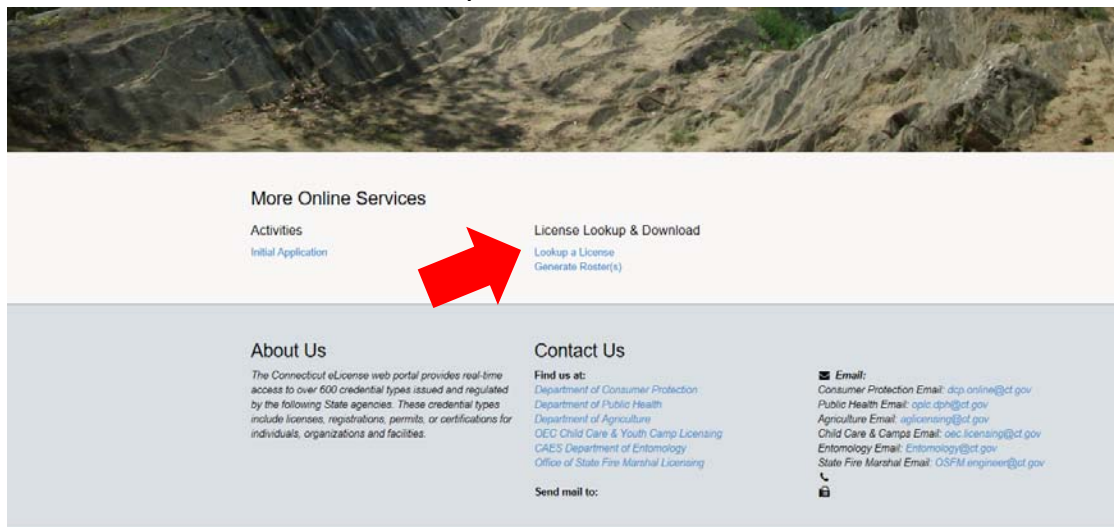

In Connecticut, a pool service company **MUST** have an SP-1 License holder. Hiring a company that does not have the proper license can cost you thousands of dollars in the case of an accident. Make sure your pool company or serviceman is legally servicing your pool by following these steps.

## 1. Browse to [www.elicense.ct.gov](http://www.elicense.ct.gov)

The screenshot shows the homepage of the Connecticut eLicense website. At the top, there is a navigation bar with links for 'Login' and 'Register'. Below this is the 'STATE OF CONNECTICUT' logo and a 'HOME MY ACCOUNT ONLINE SERVICES' menu. The main content area features a large background image of a rocky landscape. On the left, there is a 'Access Your Account' panel with fields for 'User ID' and 'Password', and a 'Log In' button. On the right, there is a 'Welcome' panel with a heading 'Welcome to the State of Connecticut's eLicense Website' and several sections: 'VERIFY A LICENSE & ROSTER', 'LICENSE RENEWAL', 'FAST TRACK RENEWAL', and 'INITIAL APPLICATION'. Below the main content, there are two columns of links: 'More Online Services' (with sub-links for 'Activities' and 'Initial Application') and 'License Lookup & Download' (with sub-links for 'Lookup a License' and 'Generate Roster(s)').

## 2. Scroll down, and select 'Lookup a License'

This close-up screenshot focuses on the 'License Lookup & Download' section of the website. A red arrow points to the 'Lookup a License' link, which is positioned above the 'Generate Roster(s)' link. Below this section, there are three columns of text: 'About Us' (describing the portal's real-time access to 600 credential types), 'Contact Us' (listing various state departments and their email addresses), and a list of email addresses for different departments: Consumer Protection, Public Health, Agriculture, Child Care & Youth Camp Licensing, Entomology, and State Fire Marshal.
